

VERIZON/AT&T AIRCARD OR TELPAGE BROADBAND WHAT'S THE DIFFERENCE?

Don't have time to read the report? No problem. Get the quick totals here.

WHAT'S THE REAL COST OF AN AIRCARD?

Have you ever wondered what's the deal with Telpage and why not just use an aircard? Well we ran a quick comparison between Verizon and AT&T's aircard/mobile device broadband plans and Telpage's wireless broadband service. How did we fare? Take a look.

Telpage Broadband	Verizon Mobile Broadband Plans	AT&T Mobile Broadband Plans
75 GB plans start at only \$39.95/month	2 GB ¹ \$20/month	5 GB ² 3G Plan \$60/month
	5 GB ¹ \$50/month	5 GB ³ 4G Plan \$50/month
	10 GB ¹ \$80/month	
	¹ Overage \$10.00/GB (Overage charges occur when you exceed your plan's monthly allowance.)	² Overage \$0.05/1MB = \$50.00/GB ³ Overage \$10.00/GB (Overage charges occur when you exceed your plan's monthly allowance.)

APPLES TO APPLES?

So how much would you have to pay Verizon or AT&T to get the same service offered by Telpage for only \$39.99? The formula is really fairly simple. Let's use the 5 GB Verizon plan and the 5 GB AT&T 3G Plans. (3G is the prevalent cell service currently in our markets)

VERIZON

5 GB Monthly Verizon Limit
70 GB Additional GB Offered by Telpage
\$50 Verizon Monthly Access Charge
\$700 Verizon Overage Charge \$10/GB x 70 GB

AT&T

5 GB Monthly AT&T Limit
70 GB Additional GB Offered by Telpage
\$60 AT&T Monthly 3G Access Charge
\$3500 AT&T Overage Charge \$50/GB x 70 GB

TOTAL VERIZON MO. CHARGE TO OFFER THE EQUIVALENT OF THE TELPAGE \$39.99 PLAN?

\$750 (ouch!)

TOTAL AT&T MO. CHARGE TO OFFER THE EQUIVALENT OF THE TELPAGE \$39.99 PLAN?

\$3,560 (double ouch!!)

APPLES TO APPLES? IT DOESN'T EVEN COMPARE.

Telpage wireless broadband speeds are also up to 85 times faster than 3G aircard services and up to 4 times faster than their 4G services.

SO WHO REALLY RULES THE AIR :-)
